CELEBRATION
VILLAGE

OCTOBER 2016

Executive Update

Greetings from Celebration Village! In an effort to make your move as seamless as possible, I wanted to provide you, our depositors and interested parties, with an update of our progress and a revised range of dates for the anticipated opening of the community.

The good news is we are continuing to make progress in our development. As many of you are aware, we opened our Celebration Village offices last fall, and since that time, we have been forecasting a possible opening of the community in the fall of 2016. However, as we have progressed to this point in the construction of the community, some mitigating factors such as heavy rains during the first quarter of 2016 have caused delays that we did not anticipate in our original projection.

We value your confidence and trust, and want to take the initiative to provide you with all of the information you need in order to minimize any inconvenience that may arise as a result of the revised schedule. Contegra Construction Company that is responsible for building the project has issued a new projected opening date of March 2017. That being said, if this new timeframe presents challenges for you, please don't hesitate to contact us to develop a game plan that meets your specific needs. Helping you plan for a smooth transition is a top priority for the Celebration Village team.

Going forward, be assured that the team at Celebration Village will keep you informed. While the wait may seem endless, we can assure you that once you experience the Celebration Village "difference" and the Masterpiece Living lifestyle, you'll know the wait was definitely worthwhile. For our part, we cannot wait to welcome you to your new home.

Sincerely,

Keith Magnan

MASTERPIECE MOMENT

By Roger Landry, MD
President, Masterpiece Living®

The Masai have a saying, "Life is change." We know this in the same way that we know that aging is inevitable. If we're alive, we are changing as we get older, and not all of that change is welcome.

Being the best we can be as we age is more than simply preventing adverse things from happening to us. It's also about accommodating these inevitable challenges, developing resilience, and making this time in our lives a masterpiece.

We do this when we pay attention to the things that make our lives vibrant ... staying physically active, trying something we've never tried before, reaching out to the people around us (including smiling and giving a nod to strangers), seeking out a few quiet moments each day, and figuring out the essence of this current phase of our life's journey. This is how we add color to our life's tapestry and make life meaningful. **How will you make your life a masterpiece?**
